An application has been made by your client(s) named above to title and register their vehicle in Idaho. The applicant has stated that you are holding the current vehicle title, as lien holder. The State of Idaho requires that the out-of-state certificate of title be surrendered before titling and registration can be completed. If you have an electronic title, please request a paper title from your state, so that we may assist your customer.

Please submit the title and a photocopy of this letter to the address shown below. ***If your lien is still active, it will be recorded on the Idaho title, which will in turn be mailed to you after issuance.*** If your lien is no longer active, please release the lien on the title and surrender it to this office.

Your client will not be able to obtain a permanent registration in Idaho until the title you are holding is submitted.

Sincerely,

Rebecca W. Arnold
