Capital Investment Plan 2022 – 2026
INTRODUCTION
Ada County’s tentative budget for FY 22 for all funds is $296 million and reflects a balanced budget, as required by Idaho State law. The county’s budget is broken down between those funds that are property tax supported: Current Expense, also known as the General Fund, $202.9 million, special levy funds $28 million and special taxing districts $22.8 million; along with those funds that are self-supported: special revenue funds $12.8 million, and business-type funds $29.5 million. These funds are described in further detail later in this document.

The departments within the General Fund receive revenue collected from sales tax, revenue sharing from the State of Idaho, liquor sales and interest all referred to as ‘shared revenue’. Other revenue streams that balance the budget are charge for service fees, intragovernmental and rents along with the use of fund balance or savings. Fund balance used to support the General Fund is $17.3 million; $667 thousand is also used to support the special levy funds, $1.1 million for special taxing districts, $1.8 million for special revenue funds, and $60 thousand for the business-type funds.

Most services county government provide are required by State law and have either a set fee schedule (i.e. recording fees, building and plan check fees and court fines and fees) that can’t be changed, or the services provided can’t be charged for (i.e. accounting, auditing, appraisal, treasury functions and prosecutorial services). Property taxes are therefore one of the largest sources of revenue for Ada County. State law does limit the amount of property tax that can be levied in any given year. Property taxes can be increased by 3% of the highest last three years levied plus the amount from the new construction roll, which is calculated by taking the prior year base plus any of the 3% base increase allowed (if applicable), dividing that by the current year taxable value plus the prior year joint operating value and multiplying that by the new construction roll value. Any property tax calculated by these formulas that is not levied may be ‘banked’ for future use and is considered forgone. When forgone is used or levied, a public hearing must be held and an advertisement of such must be published. A resolution detailing the amount of forgone being contemplated and its specific use is then adopted at a separate public hearing. Ada County did not take any forgone, rather we chose not to levy for the 3% increase which equated to $4.4 million or the new construction roll at $4.4 million and will increase our forgone balance if the County choses to bank this amount via a public hearing and adoption of a resolution. In addition, the County cut property taxes by another $12.4 million, which cannot be banked for the future.

This budget document is laid out by fund type; however, we’ve also provided information related to program type. Ada County has eight program types; general government, judicial services, health and welfare, culture and education, public safety, recreation, sanitation and component unit. You can find more information related to these programs on page 10.

GENERAL FUND

The General Fund budget for FY 22 is $202.9 million, an increase of $13.4 million or 6.6%. This is due to an increase in personnel costs of $11.5 million, due to 48 new employees and a 2% merit/2% COLA, and an increase in
operating/capital expenditures of $1.9 million. These increases are offset by an increase in charge for service and shared revenues along with an increase in the use of fund balance. The General Fund contains the budget for the elected offices of the Commissioners, Clerk, Sheriff, Treasurer, Assessor, Prosecutor and Coroner; along with the following departments that are under the purview of the commissioners: Juvenile, Operations, Information Technology, Development Services, Public Defender, Human Resources and Procurement. More information can be found on pages 9, 10, 13, 14 and 18-42.

SPECIAL LEVY FUNDS

Special Levy Funds are those funds that are authorized by Idaho Code to collect property tax under a special levy, separate from Current Expense; however, they share in the distribution of the authorized 3% increase discussed above. These funds include: Indigent Services, Weed Control, Parks, Appraisal and Land Records, Veterans Memorial and District Court (Clerk and Trial Court Administration). Special Levy Funds for FY22 is $28 million, a decrease of $2.9 million. This is due to a decrease in operating/capital expenditures in Indigent Services related to services being phased out due to Medicaid expansion. You can find more information on these funds on pages 9, 10, 15 and 43-50.

SPECIAL TAXING DISTRICTS

Special taxing districts are those districts that have their own levy and are allowed by law to increase their property taxes by 3% and use the new construction roll. Emergency Medical Services, Pest Extermination, Mosquito Abatement and Avimor CID No. 1 are all special taxing districts within Ada County that make up $22.8 million of the budget, with $12.1 million in departmental revenue, $9.6 million in property tax and $1.1 million of fund balance. More information can be found on them on pages 9, 10, 17 and 57-61.

SELF SUPPORTED SPECIAL REVENUE FUNDS

Self-supported special revenue funds are exactly that, they each have specific revenue sources that are legally restricted to expenditures for specific purposes per Idaho Code. These funds in Ada County are: Drug Court/Mental Health, Emergency Communications, Waterways, Court Monitoring, Emergency Management and Consolidated Elections. Collectively they make up $12.8 million of the budget, with $11 million in revenues and $1.8 million in fund balance. More information on these funds can be found on pages 9, 10, 16 and 51-56.

SELF SUPPORTED BUSINESS-TYPE FUNDS

Better known as enterprise or proprietary funds, these funds provide goods and/or services to the general public and finance their operations mainly through user fees or charges. Ada County’s business-type funds are: Billing Services, Expo Idaho and Solid Waste Management and make up $29.5 million of the FY22 budget. More information on these funds can be found on pages 9, 10, 17 and 62-65.

CAPITAL INVESTMENT PLAN

Ada County’s Capital Investment Plan (CIP) began in fiscal year 2015. Funds for the projects approved for CIP are budgeted in the General Fund and moved to a capital project fund once the new fiscal year has begun. For more information related to the CIP projects funded and submitted this fiscal year please see Capital Investment Plan FY2022-2026 attached after the budget documents.
Ada County has adopted several practices and policies related to our finances, based on best practices. These practices and policies are reviewed during the budget process and when preparing the County’s fiscal year-end audit. Below are the practices and policies used during this budget process:

**FUND BALANCE ANALYSIS**

At the beginning of every budget cycle, the Auditor’s Office, as the Budget Office, reviews the fund balance that has accumulated in each fund over the past year for two purposes: 1) to estimate the amount of ‘available surplus’ that could be used to support the budget and 2) to evaluate whether or not property taxes (for those that are property tax supported) can be shifted to another fund, rather than just increasing property taxes. When property tax is shifted off, fund balance is used in its place to balance the budget allowing for fund balance to be gradually reduced to an appropriate level. During the fund balance analysis, current cash along with estimates of cash at the end of the current fiscal year are considered as well as reservations for staying on a ‘cash basis’ and ‘minimum fund balance’ both described below.

**CASH BASIS**

Current property tax collections are not available until the fourth month of the fiscal year, therefore, fund balance must provide for cash flow during the first quarter of the fiscal year to alleviate the timing difference between receipt of revenue and disbursement of expenditures. An estimate of the cash basis requirement is prepared annually in conjunction with the budget process.

“Cash basis” requirement is calculated by taking the first quarter of the current year expenditures plus a factor (factor represents increased costs for the subsequent year) less the first quarter of the current year revenue with possibly a factor depicting current economic trends. A positive amount indicates there are more expenditures than revenue and is considered to be the amount needed to stay on a “cash basis”. This amount will be set aside when calculating the estimated ‘available’ surplus for the budget. A negative amount indicates there is enough revenue collected during the first quarter to cover the first quarter expenditures; most likely for some self-supported funds. In this case, there would be no need to set aside any fund balance when calculating the estimated ‘available’ surplus.

**MINIMUM FUND BALANCE AKA BUDGET STABILIZATION RESERVE**

It is important to establish minimum levels of fund balance (‘budget stabilizations’ reserves) also known as rainy day funds since fund balance is often used during the budget process. Setting aside fund balance to mitigate current and future risks, to ensure stable tax rates, to address long-term financial planning, to preserve bond ratings and to protect against reducing services levels or raising taxes and fees because of temporary revenue shortfalls or unexpected one-time occurrences take precedence over using it for the budget.

The County maintains a prudent level of financial resources to protect against all of the above. The ranges set for each fund are based on the predictability of revenues, volatility of expenditures and liquidity requirements of each fund and is reviewed periodically. The range set for all County funds, except the General Fund, is to be maintained at a level between 10 to 15 percent of actual annual operating revenues.

In conjunction with the fiscal yearend audit, the amount of minimum fund balance is calculated based on operating revenues of all the funds except the General Fund. Operating revenues are those actual revenues reported in the County’s audited Comprehensive Annual Financial Report (CAFR) in the fund ‘Statement of Revenues, Expenditures, and Changes in Fund Balance /Net Assets’; which
includes property tax and excludes transfer to and/or from other funds.

The General Fund’s minimum fund balance is set based on risk. In conjunction with the annual budget process, the County will review the amount for the General Fund by reviewing the risk impact on:

- property tax and charge for service revenue
- the likelihood of extreme events and the recovery from them
- fund balances of our self-insurance funds and other funds
- state shared revenues
- investment variances
- general uncertainty
BUDGET OVERVIEW
Budget Process

The County budgets its revenues and expenditures as required by Idaho Code Section 31, Chapter 16. Following these guidelines, the County adopts annual appropriated budgets for General, Special Revenue and Enterprise Funds. All appropriated budgets are adopted on a non-GAAP cash basis. The following is a summary of the budgetary process for the County:

Prior to the third Monday in May, each elected official or department head submits to the Auditor’s Office a proposed operating budget for the fiscal year commencing October 1. The operating budget includes proposed expenditures by department categorized by personnel services and other charges and services (including capital outlay) and the means of financing them. The Auditor’s office assures the budgets are balanced. Budget hearings give the County departments an opportunity to present their proposed budgets to the County Commissioners and the public at large.

On or before the first Monday in August, the proposed budget is submitted to the County Commissioners for review and tentative approval. When the tentative budget has been approved it must be published in the newspaper. A public budget hearing is conducted by the County on or before the Tuesday after Labor Day to obtain taxpayer comments, and upon conclusion of the hearing, the County Commissioners legally adopt the final budget by a resolution in the official minutes of the board.

In no event shall the final budget be greater than the amount of the advertised tentative budget. Per Idaho Code Section 31, the actual expenditures for the ensuing fiscal year shall not exceed the appropriations legally adopted by the Commissioners. The County's policy is that amounts may not be transferred between personnel services and other charges and services (including capital outlay); also amounts may not be transferred between departments or funds.

Ada County may increase the total appropriations budget during the current year as grants are subsequently awarded by federal or state agencies, for donations, for carrying forward incomplete capital project balances and for receipt of unscheduled and/or unanticipated revenue, provided there is no increase in anticipated property taxes. The appropriations budget may only be increased by the amount of actual revenues received or carried forward in the case of major capital construction projects. Such budget revisions must be advertised, discussed in a public hearing, and adopted by a resolution from the Board of County Commissioners.

The County employs budgetary integration as a management control device during the year for all funds. All appropriations, other than those for capital improvements not yet completed, lapse at the end of the fiscal year and become null and void. Lawful claims presented thereafter against any subsequent appropriation will be paid for in the ensuing budget.

Encumbrance accounting, the recording of purchase orders, contracts and other commitments for the expenditure of monies to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in all funds. All encumbrances are canceled when appropriations lapse.

OVERVIEW

The Ada County Capital Investment Program (CIP) is prepared each year to promote good stewardship of the funding entrusted to the Offices, Departments and Enterprises that make up Ada County Government. Developing the CIP enables coordinated planning, prioritization, and selection of the capital projects and operational expenses that will be undertaken annually and receive funding. The CIP also provides an opportunity to communicate capital and operational needs that have been funded from enterprise funds and are vital to the operation of County Government.

For Fiscal Year 2022, the annual budget process took place starting the week of Monday, June 14, 2021. Elected Officials and Department Heads presented their budget requests to the BoCC who then deliberated the FY22 tentative budget which will be presented to the public later this summer. This document describes the projects reviewed and considered under the FY22 CIP process by the Transformation Board (TB). In response to the FY22 CIP Call for Projects, Development Services received eight (8) CIP Project Proposals and eleven (11) Extraordinary Operational Expense Applications. These requests involve both General Fund and Non-General Fund allocations; therefore, this report is divided into two sections, which are further divided into two categories of requests:

1. 8 CIP Project Proposals
   - 4 General Fund Projects
   - 4 Non-General Fund Projects

2. 11 Extraordinary Operational Expense Requests
   - 10 General Fund Projects
   - 1 Non-General Fund Projects

A table at the beginning of each section identifies the complete list of the individual projects that are in the respective section and is followed by brief descriptions of the individual projects.
