In April, Ada County Elections, with the help of software company Civera, launched a new, first-of-its-kind data transparency tool, the Ballot Verifier. This innovative and interactive tool allows the public to explore a wide range of Ada County election data, including ballot images and CVRs for all Ada County elections from 2022 forward, including the most recent May 2024 Primary.

“Thanks to the dedication from election staff and the Civera team, we were able to upload ballot images and CVRs from the most recent Primary Election within our predicted timeline,” Ada County Clerk Trent Tripple said. “This allows voters to verify that ballots are being tabulated correctly, while also providing peace of mind that their voices were heard accurately.”

The Ballot Verifier is designed to ensure the accuracy and integrity of every vote cast in Ada County elections. With the Ballot Verifier, the public can instantly view all cast ballot images and CVRs to conduct their own "citizen count" by simply visiting this tool online.
