

POLL WATCHER DESIGNATION FORM

Pursuant to I.C. §34-304, a candidate or the chairman/secretary of a political party may designate poll watchers to observe the activity conducted at a polling place or elections office where ballots are being processed. The request for poll watchers must be filed in writing with the elections office twelve (12) days prior to the date of observation. Once the request is received, the elections office will provide general instructions and a name badge for each watcher indicating where they are designated to serve.

This form is to assist candidates and parties in providing all of the appropriate information to easily facilitate the designation of poll watchers. Multiple watchers may be assigned to the same location, but only one watcher may be permitted at that location at any given time.
