

Hansen Bio:

Angela is a practicing Landscape Architect with CTA Architects Engineers. Born and raised in rural Ada County, she developed an appreciation of the rural landscape and the history embedded in its features. The love of the rural landscape, helped Angela to focus her career on working with rural communities to creatively problem solve, through designing and implementing projects for rural communities where the critics believed it impossible.

Angela received an undergraduate degree from Boise State University. As a graduate from Kansas State University, she holds two graduate degrees, in Landscape Architecture and in Environmental Planning and Management. Angela has work experience in both the public and private arenas having worked both as educator in higher education and in her current role as lead Landscape Architect for CTA's Boise office.

As an invited lecturer Angela has spoken on the topic of Landscape Architecture's role in society and how the profession can aid in preserving the landscape. She has been the recipient of multiple awards recently including: the Idaho/Montana Chapter of ASLA Design Award for the Scentsy Campus Phase III. (2015), the Idaho/Montana Chapter of ASLA Design Award for the Scentsy Campus Phase II. (2013); and the Engineering News Record Best Project Cultural/Worship Category, The Boise Idaho Temple (2013).

In addition to her work in Landscape Architecture, Angela currently serves as the Chair of the Ada County Historic Preservation Council, is a member of the College of Western Idaho Technical Advisory Council, and is a member of the Treasure Valley YMCA, Strategic Growth Committee.
