

Ada County Veteran's Treatment Court

Ada County Veterans Treatment Court Veteran Mentor Program

Mission Statement

The Mission of the Ada County Veteran's Treatment Court Mentor Program is to afford Veterans Treatment Court participants someone who will listen and advise thereby restoring their sense of camaraderie and promoting the successful completion of their program.

The Ada County Veterans Treatment Court Veterans Mentor Program

The Ada County Veterans Treatment Court relies on cooperation and collaboration among the criminal justice system, the U.S. Department of Veterans Affairs, The Vet Center, veteran's service organizations, and community treatment agencies to provide comprehensive treatment for veterans. In addition to these entities, the court also relies on Veteran Mentors. Veteran Mentors are veterans of the U.S. Armed Forces who volunteer their time to assist the Court. Veteran Mentors provide advice, personal experiences, recommendations and guidance to veterans. Many of our Veteran Mentors are drawn from a number of veterans' service organizations, the Ada County community and government organizations. Veteran Mentors include but are not limited to those who have served in peacetime, Vietnam, Desert Storm/Shield, Operation Enduring Freedom and Operation Iraqi Freedom.

The Veteran Mentor relationship promotes and fosters, through encouragement, a "can do" attitude in the veteran; the veteran becomes motivated to accomplish his or her goals in treatment, feels he or she is not alone and knows the mentor and the Court are there for them.

Experience with the Ada County Drug Court has shown veterans respond more favorably to other veterans who have served and share similar experiences. Observations have shown veterans are more comfortable when talking with a fellow veteran who works for one of the Ada County treatment courts.

The conversation and interactions between the Veteran Mentor and Veteran Treatment Court participant are on the level of peers rather than from a position of authority. We anticipate the active and supportive relationships maintained throughout treatment would

increase the likelihood a veteran will remain in treatment and improve their chances of maintaining sobriety and law abiding behavior.
