

SECTION: M-08

PROTOCOL TITLE: Adult Vomiting/Severe Nausea/Vertigo

REVISED: November 1, 2017

GENERAL COMMENTS: Nausea and vomiting are general complaints that can have any number of underlying causes. Care should be taken to screen for significant pathology and treat accordingly. An emphasis on a complete neurologic exam is paramount.

BLS SPECIFIC CARE: *See adult General Medical Care Protocol M-1*

AEMT/O.M. SPECIFIC CARE: *See adult General Medical Care Protocol M-1*
