

REOPENING ADA COUNTY

FACILITIES AND SERVICES

The Ada County Commissioners, based upon the Governor's 4-Stage Guidelines, will determine when to change stages (forward or backward) based upon data and science, including information about the spread of the virus, healthcare capacity, and our public health system's ability to test and isolate rapidly. The facility and service openings outlined here are tentative and could change based upon additional data.

STAGE 4

June 13 - 26

- Many county operations taking place inside the Ada County Courthouse will resume, with staff using rotating schedules in combination with working from home.
- Access to the Ada County Courthouse is limited and managed through the Clerk's customer service trailer in the parking lot.
- The Ada County Treasurer is taking payments for taxes at the Clerk's customer service trailer in the parking lot of the Courthouse.
- All public facing Ada County departments and offices are equipped with protective safeguards including sneeze guards, social distancing floor, chair, and table markers, and enhanced sanitation practices.
- All Ada County Parks & Waterways parks, trailheads and pathways remain open to the public for recreation.
- Restrooms at Barber Park are now open to the public and are being cleaned twice daily. Parks & Waterways staff is preparing for annual float season with COVID-19 protocols.
- Expo Idaho continues operating remote court access venue for the public to attend court hearings virtually.
- Members of the public are allowed into the building for court-related business (appearance on citations, filings, etc.), however we still encourage the public to conduct business online when possible. Most court hearings will be held electronically unless ordered in person by the presiding judge.
