We sincerely apologize for the wait times at some of our locations. The lines tend to be worst at the end/beginning of the month. Our downtown office at **190 E Front Street** has some of the shortest wait times - typically about 45-75 minutes, and occasionally no wait times. We are working diligently to reduce wait times. We are in the process of adding more staff, asking the Idaho Transportation Department (ITD) to assist with their new software system, and finding more creative ways to handle all the additional customers.
